Full-stack Software Engineer and Mobile Developer

Key Skills TypeScript, React Native, Next.JS, Nest.JS, React.JS, Node.JS, Expo, PostgreSQL. Strong UX/UI skills, fluency with Figma and Adobe CC. Agile Software Development, System Design.

Professional experience

Dereknet AI LLP
2022 Nov. – current / Senior Product Designer, Front-end Engineer
Developed an internal tech platform for NCOC (North Caspian Operating Company N.V.) and KPO (Karachaganak Petroleum Operating B.V.) using ReactJS, NodeJS, SQL Postgres, and GIT.

- Developed with back-end and DevOps Engineers for the release of new apps and API endpoints to make them available to front-end clients, that was used by over 2,000 employees.
- Designed around 50+ screen mock-ups using Figma, JS, TS, React, NextJS, which were successfully presented in the client demo.
- Worked with the CTO, PM, and IM agile coach to keep track of the project plans and timelines.
- Conducted weekly stand-ups to ensure the team worked effectively, using agile strategies to increase efficiency.

United Media SP

2015 Aug. – 2022 Oct. / Full-stack Engineer, Full-time

- Developed full-stack apps using ReactJS, NodeJS, Postgres, and MySQL.
- Wrote tech briefs describing the work that would need to be done for large features by front-end and back-end.

8 BIT Digital SP

2012 Nov.– 2015 May / Front-end Engineer, Full-time

- Provided design expertise to the organization and worked directly with production teams. Created various UI components for different web apps.
- Mentored junior front-end developers on the team in expanding new tech skillsets.
